

Proof of Performance - SUSE Virtualization Storage Validation (SUSE Certified)

Thank you for completing the SUSE Virtualization Storage Validation. Work with your SUSE Virtualization counterpart to ensure the following form is reviewed and approved.

Please fill out the following forms:

Hardware	Harvester version	Longhorn version
Ex: Oracle ZFS	Ex: Harvester 1.4	Ex: Longhorn 1.7

Test Conducted	Y/N	Screenshot
Baseline: VM with volumes only backed by SUSE Storage, perform an offline volume expansion, and perform a live migration of virtual machines		
Test 1: VM with boot volume backed by SUSE Storage, create extra volumes backed by your storage appliance, create snapshots and validate that you can successfully (live) migrate a virtual machine.		
Test 2: VM with boot and data volumes backed by your storage appliance, create extra volumes, snapshots, and validate that you can successfully (live) migrate a virtual machine.		

Please detail the steps taken to ensure Test 1 was completed.
